Experience

Avanade

June 2021 - Present

Senior Analyst - Azure Engineer

Successfully saved the company over \$25k per year on Azure subscription by implementing cost-saving recommendations from Azure Advisor.

Led the migration of on-prem VMware resources to Azure using Azure Migrate's lift and shift method, resulting in a seamless transition to the cloud.

Configured Azure Arc instance for a single pane of glass dashboard, inventory tracking, Azure monitoring, security, and compliance management, providing improved visibility and control.

Utilized Terraform to deploy Azure resource groups, virtual networks, security groups, and VMs, streamlining the deployment process and improving reliability.

Azure AD tenant engineering and administration. Responsible for maintaining and administering Azure AD accounts in multiple tenants. Office 365 licensing using Azure AD security groups. Creating and managing Azure AD dynamic security groups.

ECS CONSULTING

June 2018 - June 2021

Systems Administrator

Responsible for creating and maintaining virtual servers in Microsoft Azure and Amazon Web Services. Adjusting Azure VM SKUs and storage to better provide resources to servers in the virtual environment. Created proposal and action plan to migrate Classic resources to ARM in Microsoft Azure.

HEWLETT-PACKARD, INC.
IT Infrastructure Engineer

February 2016 - June 2018

Responsible for managing, maintaining, and configuring switching equipment using HPE Intelligent Management Center (IMC). Implemented transition of servers between networks within three months to ensure complete separation from previous network and IP. Installing, configuring, and implementing ESXi servers within a vSphere environment by adding to cluster and maintaining infrastructure within the virtual environment.

PARADIGM GEOPHYSICAL
System Administrator

March 2015 - February 2016

Installed new servers including hardware configuration, server settings, and maintaining storage/user accounts/security groups by collaborating with a team of four to support 150+ user environments. Installed 30+ servers in a new server environment to support the implementation of a new cluster designed to process geographical data.

PERCENTO TECHNOLOGIES
Technician

March 2013 - March 2015

Performed server configuration, updates, maintenance, and tasks, and supported 100 clients with small to medium business systems and networks. Configured, installed, and implemented Cisco networking equipment.

Education

Western Governors University
Bachelor of Science - BS Information Technology - Cloud Computing
